Summary

I am currently working as a java back-end developer in Konark Solarsystems having almost 2 years of hands on experience in core java/J2EE, spring, hibernate, SQL etc. in solar energy based startup.

Skill Highlight

- Core Java/J2EE
- Frameworks: Spring, Hibernate
- Database Tools: Oracle, MySQL.
- Build Tools: Apache, Maven
- RESTful WebServices
- Version control tool by GitHub
- HTML, CSS
- IDE: Eclipse, IntelliJ

Experience

Software Developer - 01/2019 to Present

Konark Solarsystems, Bhubaneswar.

- I was involved in the IT team of Konark Solarsystems for developing their official website.
- My work includes the functional and technical analysis of the requirements and according to that designing the back end, such as RESTful API and business and DAO layer of the website following Agile methodology.
- **Technology Used:** Core Java, spring, hibernate, MySQL, RESTful webservices and Git.
- Also I was involved in debugging the production bugs using Agile methods.

Other Startup Activities:

- Worked with CXOs in brainstorming and decision making in critical business and technical needs of the company.
- Hands on experience in managing teams in different projects in early stage startup environment.
- Attended different startup events, seminars at different IITs, incubation centers and IIMs for business development.

Education

Bachelor of Technology - Production Engineering - 2018 (CGPA-8.26)
VEER SURENDRA SAI UNIVERSITY OF TECHNOLOGY, ODISHA.

Certifications

Complete JAVA programming course - Great Learning.
Complete SQL course - Great Learning.
